PRESS RELEASE

April 28th, 2010

Advent Technologies participates at the 16th Group Exhibit H2+FC at HANNOVER MESSE April 19-23 2010

Advent Technologies participated for the fourth year in a row at the Hydrogen and Fuel Cell Group Exhibit at Hannover Messe. 95% of exhibitors and around 150,000 visitors overcame all travel challenges in order to be a part of the world's leading showcase for industrial technology.

150 companies and institutions from around the globe showcased a full spectrum of hydrogen/fuel cell-related products & services at Europe's largest and most important H₂/FC exhibition – the Group Exhibit Hydrogen + Fuel Cells at HANNOVER MESSE.

Advent Technologies world leading High Temperature PEM products and technology were exhibited and attracted very significant attention amongst the technologists in a year struck by the financial crisis.

Dr. N. Gourdoupi and Dr. N. Triantafyllopoulos with exhibition visitors

ADVENT TECHNOLOGIES S.A. is engaged in research, development and commercialization of new materials and systems for renewable energy sources. The major effort of the Company focuses on a high temperature PEM fuel cell system based on its proprietary technology. The Company, founded by researchers from the Foundation for Research & Technology-Hellas (FORTH-ICEHT) and the University of Patras in February 2005, is a spin-off operation from these two academic institutions and is funded by industrial partners (Systems Sunlight S.A., Velti S.A, ILPRA S.A.) and private investors. Advent Technologies is headquartered in Athens, Greece and occupies research, development and manufacturing space in the Patras Science Park (PSP) and in its US location in Boston Massachusetts.
